## Academic Audit for 2022–2023

I take immense pleasure in presenting the Annual Report of Vysya College, Salem-103, for the academic year 2022–2023, highlighting the significant academic, administrative, and co-curricular activities undertaken during this period. The institution continues its commitment to providing quality education and holistic development to students under the affiliation of Periyar University.

The academic year commenced with well-structured planning and effective execution of academic activities. Graduation Day was successfully organized with eminent dignitaries, including the Vice-Chancellor of Periyar University, who delivered the convocation address and distributed degree certificates to the graduates. Faculty members ensured systematic academic delivery by preparing lesson plans, notes, question banks, and subject videos for all courses. Continuous assessment was carried out through unit tests, model examinations, and assignments following the prescribed university pattern.

The teaching-learning process was strengthened through the integration of digital resources and ICT tools. Faculty members actively prepared and updated e-content, including video lectures of more than 45 minutes duration, and uploaded them in the institutional platform. A new academic application was introduced to enhance communication and learning efficiency. Emphasis was also placed on maintaining academic discipline, attendance, and proper documentation.

The institution strictly adhered to the guidelines of Periyar University in conducting practical and theory examinations. Faculty members ensured timely completion of the syllabus, proper verification of question papers, and systematic evaluation of answer scripts. Internal marks were prepared and uploaded accurately in the university portal. Model examinations were conducted, and answer scripts were evaluated using digital tools to maintain transparency and efficiency.

Student development remained a key priority during the academic year. Various orientation programmes, fresher's day celebrations, and awareness programmes were organized for the benefit of students. Programmes such as eye check-up camps, health awareness sessions, anti-drug campaigns, voter awareness programmes, and self-defense training were conducted to promote physical, mental, and social well-being among students. The college actively promoted skill development and employability. Training programmes on aptitude and soft skills were conducted for second and third-year students. Special coaching sessions, including TCS training, were organized to enhance placement opportunities. The institution also facilitated on-campus and off-campus recruitment drives, including interviews conducted by reputed organizations such as Mahendra Next Wealth and Vee Technology.

The implementation of the **NAAN MUDHALVAN Scheme** played a significant role in enhancing students' skills in emerging areas. Various training programmes, including digital skills, income tax, and GST, were conducted under this initiative. Additional value-added programmes such as Tally classes and beautician courses were also organized to equip students with practical and vocational skills.

The institution also focused on academic enrichment through guest lectures and special programmes. A guest lecture on User Interface was conducted for Computer Science students, and several awareness programmes, including cancer awareness and language development initiatives, were organized to broaden students' knowledge and perspectives.

Faculty members actively participated in academic responsibilities such as central valuation, examination duties, and content preparation. They adhered strictly to institutional policies, including maintaining discipline, updating academic records, and ensuring effective classroom management. Continuous monitoring of attendance, feedback collection, and student records contributed to maintaining academic standards.

Administrative efficiency was ensured through proper allocation of workload, preparation of timetables, and systematic maintenance of records. Departments functioned in a coordinated manner under the guidance of Heads of Departments, ensuring smooth academic operations throughout the year.

In conclusion, the academic year 2022–2023 has been marked by disciplined academic execution, effective integration of technology, and a strong focus on student skill development and employability. The collective efforts of the management, faculty, and students have contributed significantly to the growth and success of the institution.
